

Gamblers Anonymous

Whether themed in one of our party formats or not (Wild West, Caribbean Party Boat, Monte Carlo or James Bond), this unique event format incorporates non-stop entertainment and interactivity for your group. Guests will find it both challenging and fun to compete individually or in a team format against our croupiers under the tight control of a casino manager. Main Events have a reputation for organising something out of the ordinary when it comes to a casino night and this is done by combining traditional and alternative games from around the world.

Company branded cash is issued to each group in a large swag bag! The objective for each of the teams is to turn their pocketful into a bucketful during the course of the event, normally 2 to 3 hours, but this can vary – for example by running 2 sessions.

The following elements are available:

- Roulette
- Blackjack
- Craps
- Wheel of Fortune
- Baccarat
- Video Horse Racing
- Grab a Grand Cubicle
- Treasure Zone (Unique to Main Events)
- "Between the Sheets" (A Main Events speciality)
- We also extend into other areas including an emergency Pawn Broking Service, and a "Cash for courage" challenge!

Gamblers Anonymous is first and foremost a fun event but it also offers team-bonding benefits for working groups and company-client relationships. It's important to remember that the croupier staff are equally as important to the success of this event as the games themselves in the implementation of a fun casino. Main Events are proud to offer an experienced team of performers to extend your event beyond the norm.

Depending on the budget available we can offer a number of added value elements. For example, a professional 'Pick pocket' can be introduced to the proceedings to make sure that everyone is holding onto their money. This works exceptionally well and often we hold a surprise auction prior to counting up the team winnings to give people a chance to buy back their watches, spectacles, ties, jewellery etc. Our resident pickpocket is truly the icing on the cake for your casino night event.

Attached is a list of other activities and performers that we can include at your request.

Other Activities

Pawn Brokers Shop

Theming the room with a small shop where players can buy and sell items.

Extra Casino Tables

For larger groups more tables may be necessary. If several extra tables are required the cost per table will reduce.

Close Up Magician

We have a selection of extremely talented magicians who will amaze and astound you with their talents. They can be employed by a team to create magic which may make them money.

Caricaturist

Our caricaturists are true professionals. They are able to theme caricatures if required. One caricature can be drawn every 5 minutes. You'll have to give up some of your cash to "buy" one.

Silhouettist

An unusual but highly respected talent, our man Charlie Burns is a true professional. A very presentable and adept performer, he will cut, shape and frame each silhouette in less than 2 minutes giving each client something unusual and charming for the wall back home. Remember though, it'll be a toss up as whether to "buy" one or hang onto your cash for the overall prize!

007 Laser Shoot

Similar to above but in this game the targets are located all around you and go off at random. Bond music adds to the atmosphere.

Professional Pickpocket

Lots of fun with this character who has picked the pockets of the rich and famous. He will do a good walk-about routine and brings some real humour to any event. Your guests will have to relinquish some of their hard-earned cash, to "buy" back what he has stolen!

Arcade Machines

All of the Sega and Namco games are available; alternatively, why not add to the event with traditional table football or anything from our unrivalled portfolio of giant replica games. Jenga, Connect 4, Downfall, Twister, Operation, Snakes and Ladders to name a few.

Live / Background Music

Details available upon request.
